2017 Summer Tech Boot Camp
North Central Kansas Technical College

The North Central Kansas Technical College Information Technology Program would like to announce its upcoming Summer Tech Boot Camp. It will be held in Beloit, Kansas on **Tuesday May 30 – Friday June 2, 2017**.

Students and Instructors will be immersed into the world of Information Technology during the week. The camp is designed to introduce and then develop **basic to advanced skills** in many of the technology fields students love to work in.

Students and Instructors will be allowed to perform every skill taught in **Hands-on** lab environments.

Teamwork! Students and Instructors will work in a team environment while completing tasks assigned during the week.

Students and Instructors will be taught by knowledgeable College instructors who have been successful in many, State and National, Skill based competitions.

Camp will provide **Technology Directors / Tech People** a way to train student aids for the upcoming school year which will allow you to get more done with reliable, knowledgeable students.

Interested in **College Credit**, we will provide both undergraduate and graduate credit to those who want and need college credit.

NCK-Tech will be providing students an opportunity to receive a **college scholarship** in the amounts of **$500 to $1000** for enrollment into the Information Technology Program when you apply to be a Technical Honor Student.

Low-cost enrollment! Cost for four days at camp will be $125. $25 Deposit by May 1.

Limited enrollment! We are seeking 25 people for our first camp. We will take about 20 students and 5 instructors. So be one of the first to sign-up for camp. Preference is given to those bringing teams. The camp is intended for Juniors through Seniors in High School and their instructors or technology directors.

For more information, contact Robert McCreight at 785.738.9070 or anyone at the college for further information about the camp. Or, go online to http://educate.ncktc.edu/InfoTech/ITBootCamp/ .
